**Support for Families Experiencing Homelessness**

The Department of Children and Families uses a multi-generational approach to support families who are experiencing homelessness. The Child Care and Development Block Grant Act of 2014 created provisions to bridge the barriers families experiencing homelessness have when accessing high-quality care. YoungStar is working to assist child care providers with identifying and supporting all families in need.

**Homelessness Defined**

The McKinney-Vento Homeless Assistance Act<sup>®</sup> defines people experiencing homelessness as "individuals who lack a fixed, regular, and adequate nighttime residence." This definition includes children who are sharing the housing of other people, living in residences due to lack of alternative adequate accommodations, living in emergency or transitional locations, or are abandoned in hospitals.

Head Start prioritizes families experiencing homeless whether due to loss of housing, natural disasters, or emergency situations. Head Start programs are required to coordinate with local McKinney-Vento liaisons to ensure access for eligible families and children. In these instances, families are provided flexibility around necessary documentation timelines and provided with programs and services available within the community.
